To Whom It May Concern:

I am pleased to write this recommendation for Michelle Carpenter. I have known her for four years, supervised her internship and observed her in numerous teaching situations and presentations. As you can see by her resume, Michelle has taught all ages of students. In my observation of her teaching style she is able to adapt instruction, engage students and communicate with all age levels.

Michelle is also a fine musician which reflects in her performances and her ability to teach musicianship to students. She demonstrates good leadership skills, a strong work ethic and the motivation to achieve.

Michelle is able to reflect on her teaching and set future goals for her own growth as a teacher. I recommend her, without reservation, for a teaching position. Feel free to contact me if you have any questions.

Sincerely,

Dorothy Bryant, PhD
Chair of Music Education
Coordinator of Masters of Music in Music Education
